Profile Summary

- Highly motivated Frontend Developer with **4 years of experience** crafting user-centric web experiences using **React**, **Next.js** and **WordPress**.
- Specialized in **user-centric design** and **cutting-edge web technologies** for impactful digital experiences.
- Adept at building **responsive and performant websites and applications**, ensuring seamless functionality across all devices.
- Proven track record of collaborating effectively with designers and back-end developers to deliver **high-quality solutions** that meet client needs.
- Enthusiastic about staying up-to-date with the **latest web technologies** and best practices.
- Applies **diverse tech expertise** to ensure efficient product development, resulting in smoother processes and higher quality.

Work Experience

Frontend Developer
Expedite Studio   **May 2020 – Present**

Responsibilities:

- **Revolon (https://revolon.gg):** Developed a user management dashboard for Revolon, an online game, using React, TailwindCSS, and ShadCN UI. Implemented responsive design, user authentication, role management, and RPM token staking frontend, enabling seamless player account control and token staking. Focused on delivering a smooth user experience and efficient interface.
- **Community Forum (https://stacked-lobbies.vercel.app):** Developed a community forum, 'Stacked Lobbies,' using Next.js 14, TypeScript, and MongoDB, similar to Reddit. The forum enables the gaming community to collaborate and discuss topics related to the Stacked Lobbies game, fostering engagement and community interaction.
- **Dynamic Blog CMS Implementation:** Engineered an in-house Blog CMS for real-time, flexible blog additions and releases across all screens. **(WordPress)**
- **Portfolio:** Developed custom portfolio websites of Web3 companies and products from scratch. **(Next JS, React JS and WordPress)**
- **Enhanced Security Measures:** Improved website security using custom validations, Helmet, CORS, and jsonwebtoken.
- **Collaboration:** Lead the development phase of websites, collaborating closely with design and testing teams to ensure a top-notch product.

WordPress Developer
Think Solutionz   **Oct 2019 – April 2020**

Responsibilities:

- **Theme Based:** Developed a wide range of websites for the businesses to help them grow globally.
- **E-Commerce:** Developed a number of Woocommerce stores for the client to sell their products globally and smoothly.
- **Portfolio:** Developed custom portfolio websites from scratch for a number of businesses, helping them showcase their work and attract clients internationally.
